

Iteration 2 Release - Mustang Tutors

Link to iteration plan:

<https://github.com/MustangTutors/main/issues?milestone=2&page=1&state=closed>

Features from feature set not completed:

- When applying to be a tutor, the button to add a profile picture is currently not functional. Also, adding a transcript doesn't actually work. We have decided to remove the transcript feature, and the upload section in the add courses box will be removed in the next iteration.
- The Inactive/Active toggle switch on the tutor profile admin edit page is currently not functional.

*Create your own account.

Other information:

General:

- Please test our website using Google Chrome.

Website:

- When applying to be a tutor, there is currently not any indication to the user that their application has been successfully submitted when the “Submit Application” button is pressed, but it does actually submit the application. Login as an admin in order to view the applications.

Android:

- Requires a minimum of Android version 4.0 Ice Cream Sandwich (SDK Version 14).
- Requires an Internet connection.
