   SMU ID: 11111111
   Password: asdfasdf

   SMU ID: 22222222
   Password: asdfasdf

   SMU ID: 33333333
   Password: asdfasdf

   SMU ID: 44444444
   Password: asdfasdf

   SMU ID: 55555555
   Password: asdfasdf
3. Account for only Admin
   SMU ID: 66666666
   Password: asdfasdf
4. Account for neither Tutor or Admin (regular Student)
   *Create your own account.

Other information:

General**:**
- The iteration plan is divided into GUI and DB GitHub issues on the milestone. Please be sure to look at both the GUI and DB issues of each feature.
- Some work has already been done on features for the next iteration (tutor search on Android, admin view of applications, tutor view of history) but note that they are not fully functional.

Website**:**
- When registering, please don't use your real SMU ID and password. The passwords currently are not hashed, and we cannot guarantee the safety of any personal information posted on our website at this time.
- In order to test the "Get Student's History" page, we suggest first logging in as that student and sharing his or her history with yourself (use your real email) so that you can copy and paste the appropriate codeword.

Android**:**
- Requires a minimum of Android version 4.0 Ice Cream Sandwich (SDK Version 14).
- Requires an internet connection.
